Preface

The 2018 The 3rd International Conference on Information and Education Innovations (ICIEI 2018) took place in London, United Kingdom, between June 30 and July 2, 2018. On behalf of the organizing committee of this conference, it is a great pleasure and honor to introduce the proceedings of ICIEI 2018.

The proceedings include a variety of advanced scientific and academic achievements in the area. Full papers submissions were blind peer-reviewed by at least two experts from the International Program Committee in order to ensure high quality standards of research.

The papers were grouped into three main themes:

- Digital teaching and innovation
- E-learning and learning technology
- Information Education Technology and Mobile Applications

The conference was further organized as a series of multiple concurrent sessions, led by experts in the respective fields, all as follows:

- Session 1 on Artificial Intelligence and Intelligent System Development, led by Professor Luiz Moutinho, University of Suffolk, UK;
- Session 2 on Mobile Learning, led by Professor Farid Meziane, University of Salford, UK;
- Session 3 on Creative Education and Management, led by Professor Paolo Terenziani, DISIT – Università del Piemonte Orientale, Italy;
- Session 4 on Course Teaching and Mobile Learning, led by Professor Alexandra I. Cristea, Durham University, UK;

This grouping into concurrent sessions facilitated the exchanges of ideas, novel and practical techniques and applications in various fields of innovations in information and education. Even after session discussions were closed, they were reopened at the conference dinner, the venue of ICIEI 2018, and all participants greatly enjoyed the talking.

We certainly appreciate the efforts and contribution from the program chairs, organization staff and the members of the program committee for their work. Thus, we wish to express our gratitude to all those who have contributed to the success of ICIEI 2018. We sincerely hope that all participants and guests benefit significantly from the published proceedings.

At last, we hope all of you will again get together at the next ICIEI, to have intelligent and exciting, academic and practical discussions which will be rewarding and most enjoyable experience.

With our warmest regards,

Professor Alexandra I. Cristea, Durham University
